

Autoline Industries' turnover spirals

MUMBAI: AUTOLINE Industries' turnover has grown from Rs 1.1 million in 1995-96 to over Rs 1113 million in 2005-06. The company is a leading auto component manufacturer catering to the components and sub assembly requirements of leading automobile manufacturers. Starting with contract manufacturing of sheet metal components in January 1995, the company has grown and today manufactures a wide range of products in its facilities at five locations. During 2005-06 the company commenced supply of load bodies to Tata Motors as single source supplier for the light commercial vehicles.
